

Floodplain Management Working Group Meeting
MONDAY, December 12, 2016 at 9:30am
Municipal Building, 28 North Main Street
DRAFT Meeting Agenda

9:30 Regular Business

1. Assign volunteer meeting chair
2. Agenda review/modification
3. Announcements
4. Review/approve October 28, 2016 Floodplain Working Group Meeting Minutes
5. Update on Hazard Mitigation Projects
 - a. HM Plan Update –
 - i. Please review attached 2012 Waterbury Town and Village Hazard Mitigation Plan, Sections 4 and 5 (pages 4-28) for review and discussion to update the Planning Process and Risk Assessments. Much of the information needs updating but not a total rewrite. One area that seems to be missing is any discussion on the railroad and highways regarding hazardous materials in addition to stationary Tier II sites with hazardous materials.
 - ii. Also attached is the FEMA Assessment for 2013 with comments on Plan Strengths and Opportunities for Improvement. Please review for discussion on incorporating the Improvement suggestions. One is for a town wide survey to involve citizens in the all hazards planning process. (Waterbury Record and Front Porch Forum?)
 - iii. Establish timeline for completion and outreach component.
 - b. Elevation Projects update – Healy Court and 4 others
 - c. Floodplain restoration
6. Review draft FMWG Annual Report for the Town and Village Reports due in January
7. Set date and time for next meeting in January
